

Inner Retreat Dispensations

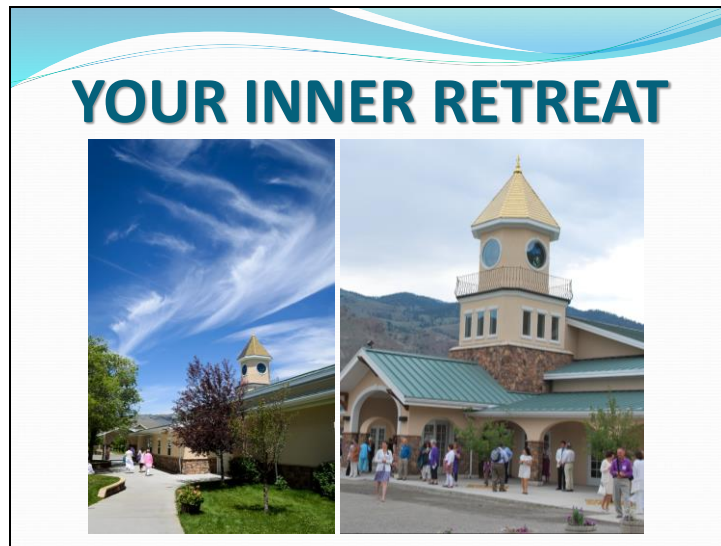

The Inner Retreat is the worldwide headquarters of The Summit Lighthouse and Church Universal and Triumphant located in Paradise Valley, Park County, Montana adjoining Yellowstone National Park. The property has five and a half miles of contiguous border with Yellowstone Park and eight and a half miles with Yellowstone River.

The Inner Retreat is the physical and etheric outpost of the Great White Brotherhood at the Royal Teton Ranch. The Inner Retreat is known as the “Place of Great Encounters” and is called “the Place Prepared.” It is the place of the Mystery School of Lord Maitreya—the mystery school of the Garden of Eden on Lemuria come again. [more about this later]

The land of the Inner Retreat is considered sacred and holy. The Inner Retreat is partially in the etheric octave. It is eighty miles from the etheric retreat at the Grand Teton. In the etheric octave above the Inner Retreat is the Retreat of the Divine Mother.

The Messenger and the Masters have said much about the Inner Retreat, the Royal Teton Ranch and its surrounding areas. We want to share just some of the instruction and teaching given about the important features, landmarks and sacred places in and around this sacred land.

The Inner Retreat is your spiritual home, your home away from home.

This land is irreplaceable for our mission. We have been told not to expect another. We hold it in trust and see as a permanent place.

Numerous prophecies exist concerning the purpose of this land, its importance to the people of earth and its use for hundreds and thousands of years into the future. The land, the forests, the mountains and the wildlife and plants are all part of the divine design. The mountains include the closeness of the Grand Teton Mountain range. The water includes Old Faithful and the Yellowstone River which is considered a “holy river.”

In due course, many structures will be built here including a mighty Temple called Victory’s Temple, the Good Samaritan Hospital and healing center focused around the healing waters of the La Duke Hot Springs.

ANCIENT SACRED LAND

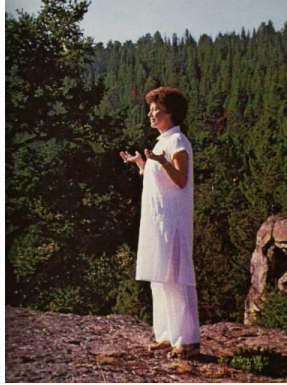

This land is sacred, it is holy and it is ancient. This is an ancient spiritual focus of light and it has an unusually high spiritual vibration. It is a place of destination for our membership who pilgrimage here each year from all over the world for our quarterly spiritual conferences. It is a place where they can come apart in the mountains to pray for world conditions, meditate and commune with nature, reconnect with their spiritual family and study the Word of the ascended masters as delivered by their messengers Mark and Mother.

Gautama Buddha, the Lord of the World sits in meditation over the Heart of the Inner Retreat which is “the shrine of our international movement.”

Spiritually the Inner Retreat is known as “The Place of Great Encounters”—it is the place where we encounter the Real Self and where we can meet the angels and masters who walk this hallowed land in their finer bodies.

So we will talk more deeply now about some of these things.

THE PLACE PREPARED

Mother explained why this land is called the Place Prepared:

The miracle of the Inner Retreat began two thousand years ago in a conversation I had with Jesus when I was his disciple Martha, sister of Lazarus and Mary. He was in our home in Bethany, and the circle of disciples that gathered there asked him many questions concerning the Second Coming, the end of times or ages, what would become of us, when would he take us to heaven.

He told us that the teachings would be lost and manipulated and perverted. He told us that there would be a dark age of spirituality concurrent with the rise of materialism and that in the end of the age, those teachings would be restored.

I remember one day when I was kneading bread in the kitchen and he was seated nearby. He spoke the parable that is written in scripture: "The kingdom of heaven is like a leaven, which a woman took and hid in three measures of meal, and it leavened the whole lump."

MARTHA AND LOST TEACHINGS

He said to me, “You, Martha, will come at the end of that age. You will bring the leaven of the lost teaching.”... He said that as the disciples would be rekindled by the teaching, they, too, would go forth and this gospel would be preached in every kingdom. And then the end would come—the end of the Piscean age, the end of the balancing of our karma, the end of the necessity for our incarnation.

I wondered how this would come to pass. He told me he would take us to a new world and to a wilderness in that new world where he already had the place prepared, the site dedicated to the coming again of the Divine Mother.... Jesus said, “I will place my marker there, and it will be the sign of the coming again of the Mother and the Mother flame, which has been lost since the days of Lemuria and the sinking of the Motherland.” He said the sign would be the marker of a giant jet of water coming out of the earth into the sky—water that would look like a flame and a fire infolding itself, water that would symbolize the rising of the Kundalini, the ascension flame, and the return of the soul to God....

After I came to this activity, I was called by the masters to be a messenger and spent twelve years with Mark Prophet. He passed on in 1973, and his last words to me, the night before his transition, were to take the organization and the teachings and go and protect them and preserve them on a piece of property that I was to find in Montana.... He told me that I would be led to the place prepared and that when I found it, we would be ready to purchase it.... And so the search began....

When we were looking for the property, we flew all over Montana and adjacent areas of Wyoming and looked at many, many parcels. And walking by the faith and the inner attunement and the direction that I received, this is the place that was selected.

Two years later, Jesus came to me and he opened the memory that I have described. He pointed out the fact that our Ranch borders Yellowstone Park and that it was the geyser, Old Faithful, that he was referring to when he prophesied to me that this would be the place and I would know it by that sign.

When the land was purchased, I hadn't recalled that episode, and I asked him why he waited till now to tell me. He said that he wanted to show me that it is the Higher Mind of God and the soul's communion with that Mind that is the true guidance, and we are not always aware in the outer mind that we are truly following the inner calling.

PLACE OF GREAT ENCOUNTERS

El Morya named the Inner Retreat the Place of Great Encounters:

“We have built our retreats in the Himalayan fastnesses for the very reason that the mountains themselves are for the thinning of the chelas. And therefore, you see, each one must find his niche. Whether the bird of the highest rock or the gardens of the cities, there is no condemnation. Each man must know himself and know his place of overcoming. And the striving chelas must realize that when they have scraped the ceiling of their present abode and there are no further lessons to be learned or expansion to be gained, there is a place prepared. And this place, once only etheric, can now be physical because you have dedicated your hearts to making it possible—whether or not you yourself may make it your home in the near or distant future.”

THE NEED OF YOUR SOUL

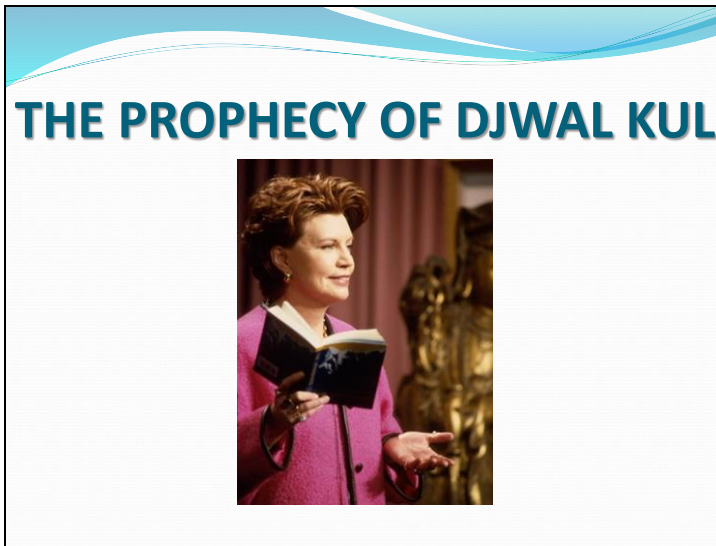

El Morya says:

“You have realized that for some, this is a necessary leg of the path of attainment, and you have realized that one day in the near or distant future, your soul will require this exact combination of environment—God’s chemistry, and community. And in that hour when you have need, by your good karma, you will find that place prepared—here or there.

“Therefore, I express the gratitude of my chelas throughout the world, on earth and in the etheric retreats awaiting embodiment, whose path of initiation could go no further or higher without this physical Place of Great Encounters....”

“There are teachings which can be given only in this environment and altitude, and books which can be written here and here alone.”

El Morya, August 25, 1982

Over the past 150 years, certain key masters of the Great White Brotherhood have anticipated this hour, and they have laid the foundations for the physical manifestation of their organization and for the protection of their chelas....

On October 2, 1920, Djwal Kul made the following statement:

The preparatory school will be located near some large city, preferably near the sea or some large expanse of water, but never within the city; it will be on the confines of the centres of learning within the city and will be readily accessible.

The advanced school will be far from the crowded places of the earth and preferably in a mountainous region, for the mountains have a direct effect on the occultist and impart to him that quality of strength and steadfastness that is their predominant characteristic and must be that too of the occultist. [This was Camelot in Malibu, California.]

...The inner retreat magnetizes the currents to focus the inner world, the spiritual manifestation of the light of each one's being; and the outer retreat is the one that is the opportunity for the mastery of the Matter sphere.

The inner retreat is for those initiates who are tried and true. The outer is open to the public where many can come and try their hand at the path.

DEVOTEES HOLD THE BALANCE

The Goddess of Liberty said in 1980:

As there are serious conditions which, if not checked, could lead to further minor cataclysm and serious conditions, **the Karmic Board recommends that a certain phase of the prophecy of Djwal Kul be implemented—which is the establishment of the inner retreat of the devotees of this activity of light that shall hold the balance for the outer activity.**

Thus the figure-eight flow of these twin focuses will mirror the figure-eight flow of the two witnesses and of the Guru-chela relationship that is enjoyed by every chela of the will of God.

I speak of the prophecy of Djwal Kul of the inner and outer mystery school. [I speak] of the community, such as that which is established here at Camelot, that must be open to the world and open to all who wish to investigate the teachings of the ascended masters.

And I speak of the inner community where initiates gather for the most important service to life—that of **holding the balance of the white-fire core, not merely of an organization, but of a planetary body.**

Goddess of Liberty, February 26, 1980

In 1984 Elizabeth Clare Prophet compared the Inner Retreat to living in Los Angeles:

“Ultimately for holding the balance in the earth we need land and the mountains and the trees and those national parks set aside to hold the energy of light.

“The whole of Yellowstone Park and the wilderness areas are a Great White Brotherhood retreat holding the energy as a giant grail of the Royal Teton....The very trees, the pines, the rocks, the streams themselves will hold the light of your decrees. The very Yellowstone River, which bespeaks of the fire of gold and the gold diamonds of Saint Germain from the heart of the causal body, that very force of the giant Old Faithful, the power coming out of the earth, the elements of the water, the heart of the rock, the earth will carry your decrees.

“L.A. is a sponge; ten million people soak up the light. [but at the Inner Retreat]

“The pillar of fire goes up; it’s held in the etheric octave; it goes to the center of the earth. God needs a spread of land and earth...we need a base to work out from that is so fiery that it can hold the balance for the nations.”

The Goddess of Liberty: Holding the balance occurs according to a very precise mathematical formula that governs the destinies of men and nations. The masters “seeing this very complex equation and problem of life,” recommended “the establishment of the Inner Retreat in an area of intensely less population...where the light of the dynamic decree and the love of the community can, in a freer way, multiply the action of light without hindrance of the surrounding populations of the greater cities. “

“You realize that the vigil that you keep and the light that you draw forth is lapped up by many hungry souls and others who do not appreciate the sacrifice but indeed enjoy the currents that result therefrom. To place a momentum, an extraordinary momentum of light in an isolated community in a greater physical area would result in the same amount of decrees having a result of a much larger balancing action for the planet Earth.

“For Nature herself, surrounding such a retreat in the hills and the mountains and the open plains and in rich and lush vegetation as well as in the waters, would create a natural reflector and multiplier by the Holy Spirit that is so redundant in the cells of life, plant life that abound in the open spaces that yet remain to be claimed for Saint Germain.”

THE GREAT DIVINE DIRECTOR said in 1985:

"This very land itself must be protected and prepared, for it has a very ancient, ancient spiritual focus, beloved. It is indeed a cradle....the feet of archangels were placed upon this land long, long ago in its formation, making etheric tracks in akasha and sealing this place as a magnet for the drawing of pilgrims. It is truly the shrine of this international movement. It is truly the point of convergence of suns.

"Let it become a more permanent place. Let the facilities be there, for you will see that we will bring members of the nations and the root races.... It is indeed a place prepared for twin flames and the cosmic cross of white fire and solar lights and the aurora borealis and the descent of mighty souls from above, in those twinkling causal bodies, to waiting parents below."

The Great Divine Director, December 31, 1985

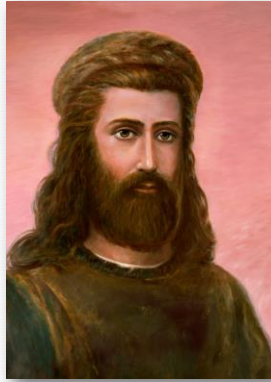

In 1993, Jesus Christ explained why many people, not only members of our organization can feel the sacredness of the land at the Inner Retreat:

“The level of your reality is even closer in this geographical location than anywhere else in the earth for the circle of light, for the protection, for the dome and the wall of light and for the Retreat of the Divine Mother and the Western Shamballa. Here is the meshing. Here is the experiment. **Here is where we would unfold, unwrap the etheric plane in the physical.**

“And here many people, coming from many different points of view, have all agreed that this land is sacred. They have set aside the parklands, the forest lands, the wilderness lands. Here is land that will be kept pristine—thus an ideal place for the merging of the etheric and the physical that men might see and behold that **there is a passageway to octaves of light.”**

SPONSORSHIP

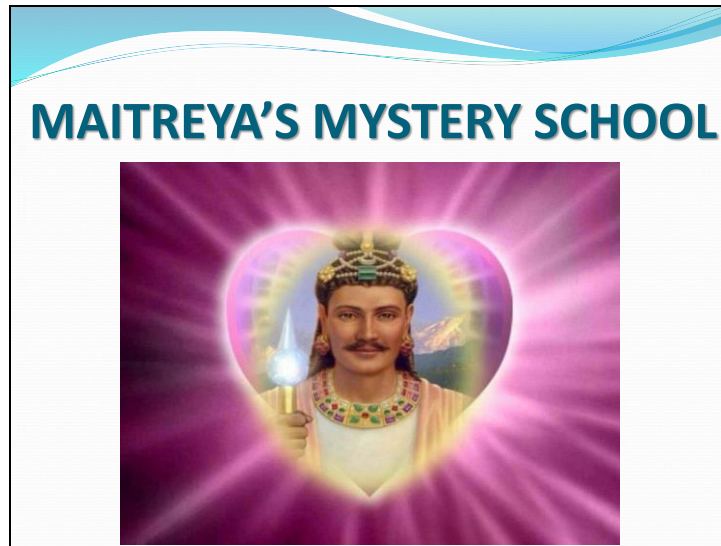

Kuthumi said, “Out of the light of my heart, I AM come to the Inner Retreat. And I am here at the behest of the Lord Jesus Christ who has spoken to me this day at the Royal Teton Retreat... I become the first to transmit, by the spoken Word, the light of the Royal Teton here. And thus it is with great joy that I salute you who have been with me for many centuries, you who find yourselves the nucleus here, drawn together by the thread of contact, by karma, by the call, and by the fervor of the devotion of your heart. Thus we trust and we obey. How are the pillars of life, even the foundation of the temple of the soul? Trusting in the hierarchy unto the God Star, you are obedient to the call, and I trust will always be in the daily details that are a part of the building of the temple.

“Many years ago I promised this messenger that when great numbers of souls would come, I would sponsor the place. And therefore she sent out the call to me and I have been so preparing and so holding this land and this forcefield. Can you not see as I do that there is in fact almost no limit to the lifestreams who could converge here? In fact, the limitation is not space but the time and the timing of the heart, the devotion therein, and the presence of the threefold flame.”

The messenger: "Morya says that the sponsorship of The Summit Lighthouse is one thing. But the sponsorship of the Inner Retreat is a grand and cosmic and noble sponsorship that comes from beings far beyond himself because and for the very reason that the chelas in this activity have earned that sponsorship, have earned the opportunity to be initiated by Masters and cosmic beings beyond himself. But that initiation demands a giant leap to a new level of the sense of chelaship."

The Garden of Eden was located on Lemuria near where San Diego is today - the first Mystery School on earth. Maitreya, the Lord God in Genesis, was its first hierarch. So the Inner Retreat is the Mystery School of Lord Maitreya come again. In 1984, Jesus announced the dedication of the Heart of the Inner Retreat and the entire property of the Royal Teton Ranch as Maitreya's Mystery School, "that Mystery School of the Garden of Eden come again, marked by the sign of the pillar of fire, Old Faithful, and the name recalled in the naming of the Paradise Valley." Jesus said this was by a dispensation from the hierarchies of the Central Sun – the open door to the coming of the golden age for earth. "This is the open door of the pathway of East and West, of the bodhisattvas and the disciples. The planetary body has gained a new status. Once again it may be said that Maitreya is physically present, not as it was in the first Eden but by the extension of ourselves in form through the messenger and the Keepers of the Flame. This mighty phenomenon of the ages precedes the stepping through the veil of the ascended masters—seeing face to face their students and their students beholding them." Mother told us that the presence of Lord Maitreya at the Inner Retreat has been continuous since then.

HOLDING A STANDARD

Kuthumi explained in 1985 that the ascended masters had come in the name of Serapis Bey to establish the mystery school, “because it is required that there be a mystery school in the physical octave in this century, teaching the path of the ascension where the only graduates from that school are Ascended Masters.”

El Morya added in 1986, “So long as the Church Universal and Triumphant shall stand as the white cube in the earth, so long [shall] the open door for angelic hosts to step through the veil and souls to ascend [remain]. Let the borders of this Church Universal and Triumphant expand. But let not the standard be lowered. Let Lightbearers come and be educated here and in Darjeeling and at the Inner Retreat, at Maitreya’s Mystery School, and be shown how they may meet a standard of excellence and the self-mastery of the sacred centers of Life.”

The Mystery School is also for the holding of a standard. Archangel Uriel said “Somewhere on earth the standard of the Mystery School of Eden is restored, somewhere on earth there is a path for those who desire this standard.”

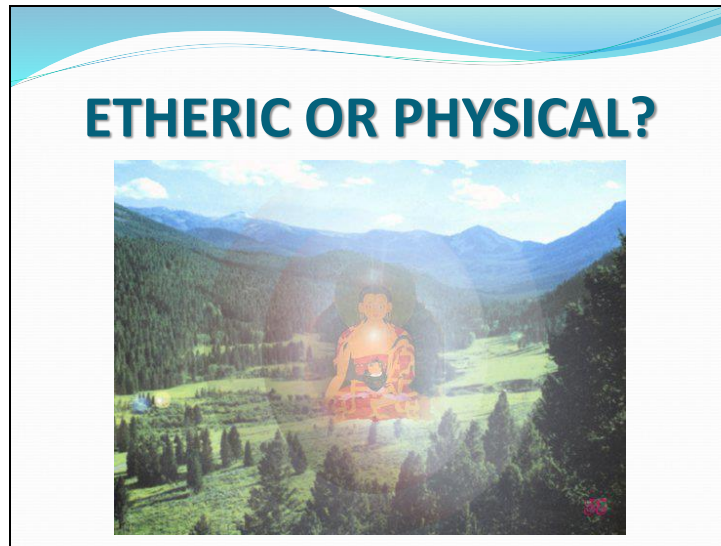

The physical land of our retreat is called the Royal Teton Ranch. The spiritual and physical retreat is called the Inner Retreat. Mighty Victory explained these two terms:

“First and foremost, the Inner Retreat is an etheric retreat. There has been some confusion as to just where the Inner Retreat is located at the Royal Teton Ranch. Some have the idea it is here or there or only in the Heart or perhaps it is the entire Ranch. The Royal Teton Ranch is the physical focus of the true Inner Retreat which is the etheric octave. And that etheric octave is the living school of Light and the retreat of the Divine Mother.

“Therefore, those who would enter the heart of the Inner Retreat must also understand the rights of passage into the etheric octave. It is necessary to follow the legions of Victory, that you might pass through physical molecules and understand truly what Being is in the Heart of that Inner Retreat in the very heart of the etheric plane.

“Therefore, when the right hand of Maitreya is raised, there is the turning back of those who may not come in to the etheric octave, for they have not woven the wedding garment.

Mighty Victory continues:

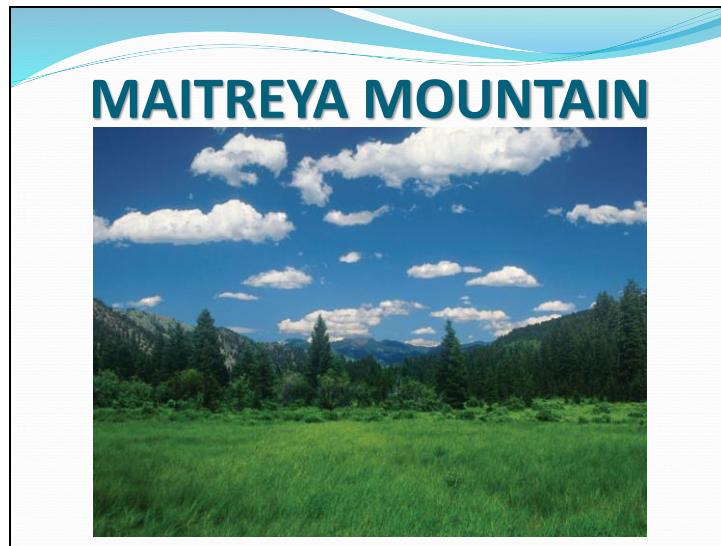

“Understand this principle. There may be some who come. There may be some who attend Summit University or even enter the work/study program. There may be souls of longstanding who have been in this movement for years. But they who have not woven the wedding garment—I tell you, they shall not enter in. the Mother has said that the land rejects those who are not fit for the Path, so it is. The etheric plane and the etheric octave and the angels who do remove those who are not part of the Mystical Body of God.

“First and foremost, then, upon recognizing where is and what is the Inner Retreat, let those who embody it and who are becoming it truly understand that you are the guardians of the physical focus of the Royal Teton Retreat at the Grand Teton. As you will preserve this Place Prepared for the Lightbearers of the earth, so will this activity prosper.”

Mother once said, “Some work at the Inner Retreat and some work at the Royal Teton Ranch.”

HEART OF THE INNER RETREAT

Lord Maitreya is seated on the mountain that bears his name:

“The establishment of the Mystery School here enables me to bring closer to the physical octave the mighty aura, the Presence of Lord Gautama Buddha, Lord of the World, whose Flame of Shamballa burns brightly. And I have placed a focus of myself in the lotus posture in meditation upon the mount you call Maitreya Mountain. Thus it is a sign raised up to all the world that in the West the Saviouress is come and the Universal Mother may once again transmit the teaching of Maitreya through her instrument and servant.”

GAUTAMA WALKS WITH YOU

Each July, devotees walk and hike up the trail to Maitreya Mountain. Mother Mary has explained that the trek up Maitreya's mountain is a pilgrimage and a calling.

Gautama said he will walk up Maitreya Mountain with you.

"We together are alchemists and we together shall climb Maitreya Mountain. Blessed ones, I will promise you that everyone who will walk or hike to that point, I will accompany. I will be your companion on the trail." Gautama Buddha April 26, 1983

Gautama Buddha confirmed that Maitreya maintains his focus there as a replica of a giant physical Buddha meditating to commemorate the Buddha Surya from the Great Central Sun who once held a mighty balance for this earth in ancient times. Padma Sambhava said, "I suggest that you conquer the land as you conquer self, hiking in these hills, ascending Maitreya Mountain and Electric Peak and other mountains that challenge you."

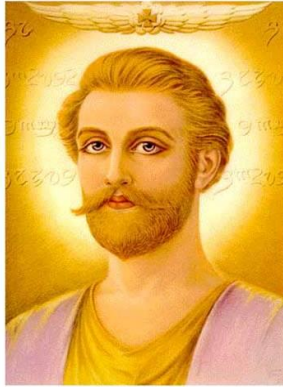

Mother Mary has asked for a cross and a log cabin to be built on Maitreya Mountain. The blessed Mother gave specific instructions for the cross and said that this 33 foot cross would be the electrode to the 35 foot cross in Medjugorje. She said that the cross at Medjugorje is an electrode in the earth, which by the devotion of many she has charged with a tremendous light. Hence the implication was that the same electrode could be formed with the cross on Maitreya Mountain at the Inner Retreat.

Mother Mary explained that a cabin such as a log cabin could be where the sound of the rosary might be heard and recited: Archangel Michael's Rosary, my rosary, Kuan Yin's Rosary. She said that it would become a place of perpetual prayer, thanksgiving, a point of pilgrimage where many can rally.

GREAT CENTRAL SUN MAGNET

SAINT GERMAIN said:

The Great Central Sun Magnet is hereby focused beneath the earth of this Heart [of the Inner Retreat], and so builded and so reinforced by elemental life in the course of your giving of these decrees. And yet, the focus has been here for longer than I can even tell you.

Yet the activation of the focus could not come unless hearts magnetized and magnetically charged, magnetizing the light, should appear.

Thus, it is always man who must respond to God and confirm the mighty secrets that are hid in the earth. How great is opportunity!

SAINT GERMAIN CONTINUES

“May you visualize a great sun disc beneath this earth, centering in the entire Heart, a blazing electrode of light—in and of itself, the electrode that magnetizes the flame of Shamballa in the etheric octave and of Lord Gautama Buddha.

“May you realize that your trek to the Heart is both to charge the focus with your causal body and to be magnetically charged by it. Without hurting your feet, I would suggest that before you leave, you remove your shoes and place the precious feet, without any covering, on the very bare earth and grass, and meditate upon the currents of the great sun disc.

“The power of this magnet could only be sustained by the presence of many surrounding mountains, forests, and nature.

Therefore, guard the Heart, guard the Inner Retreat, and call for the protection of the national forests and sanctuaries that are nearby. For all of this is God’s country, and secured long before your coming to his purposes and his usefulness.”

Saint Germain, August 29, 1982

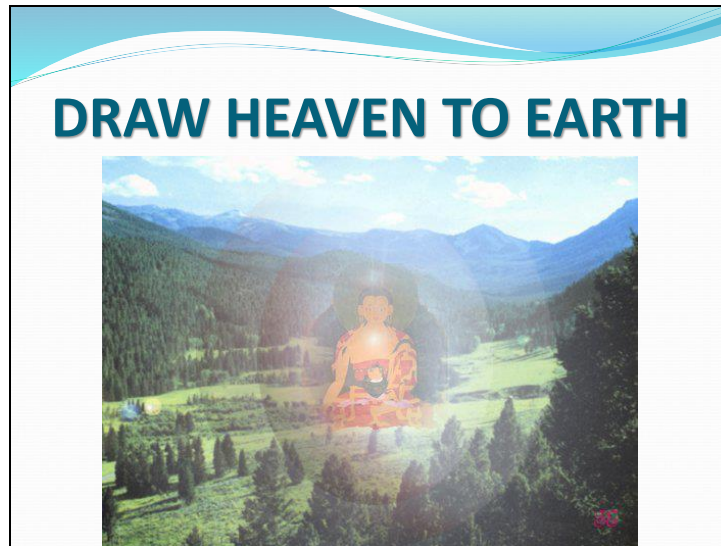

THE MOUNTAINS INSULATE

Serapis Bey said:

“The mountains themselves insulate your hearts from the burdens of world condemnation of Christ. And every living tree is a transformer transmuting hate and hate creation, by the power of the pine devas, into the love of life that continues to rise and rise, adding new branches and green shoots each year in utter defiance of the opposing force—not life, but death. As nature pulls against the gravity of earth and reaches for the magnetism of the sun, so stalwart sons find in every tree an altar of the flaming ones.

“How green is this valley. How truthful the elementals. How wondrous is the testimony of Christ as a witness. The altitude itself forces all who would move against the light to have to mount far above the altitude levels of most of the world’s major cities. Thus, you see, the beginning of the battle is much higher here than it is at sea level and below. And therefore, much is already accomplished, and the new day begins at the highest level of a new awareness and a new purpose.”

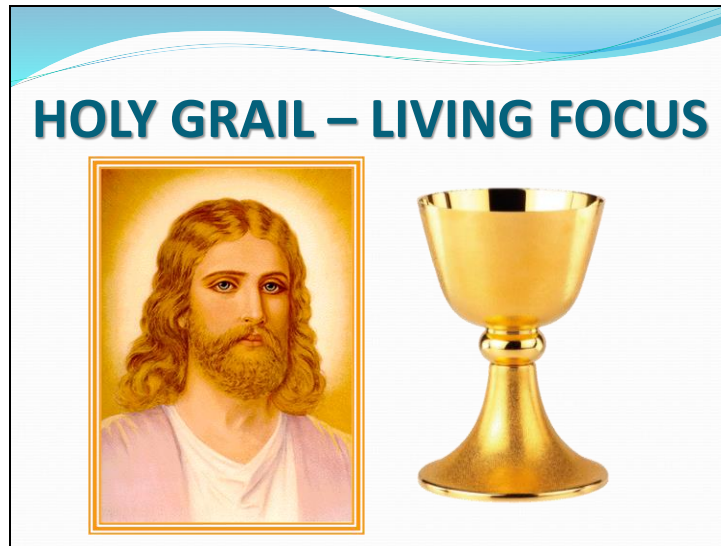

Serapis Bey continued:

The spiritual foundation and the source of our movement is established in the Inner Retreat through the heart of Gautama Buddha....

How wonderful it is to go there and to experience the etheric plane in full waking consciousness in this life, in this hour....

When this consciousness and this awareness understands the meaning of the etheric plane, you will have, my beloved, the capacity to draw down the kingdom of heaven.

Serapis Bey, June 20, 1982

In 1984 Jesus the Christ placed a focus of the Holy Grail over the heart of the Inner Retreat:

“In the name of the Holy Grail that I AM, I place now in the etheric octave over this Heart the true and living focus of the Holy Grail quested by all knights of Camelot, meditated upon in the immaculate heart by all ladies of the flame.

“I place it here as a shining light, a brilliant focus that none will miss [seeing] in their finer bodies. And it in itself is the magnet of my body and my blood. It is the magnet of the teaching and the great mystery of the flame in the bowl—Spirit infiring, enlivening, and breathing the breath of Life upon Matter.”

On December 15, 1985, Sanat Kumara announced the opening of the door of the Temple of the Divine Mother: **"The Mother has waited long for the coming of the Buddha out of the heart of Shamballa. She has waited long for your coming. And she does hold the balance of ancient civilizations that have occurred, both on Lemuria and Atlantis and those long forgotten upon this continent as well as in other areas of the earth.**

"This great and vast temple of light, beloved, has been prepared over aeons. It is the place of the gathering of the culture of all nations and peoples. It is the place of the drawing together of many lifewaves. Therefore, minister to them, understand them, feed them the teachings of the path of their own soul's resolution, their own soul's calling, and their own soul's tradition.

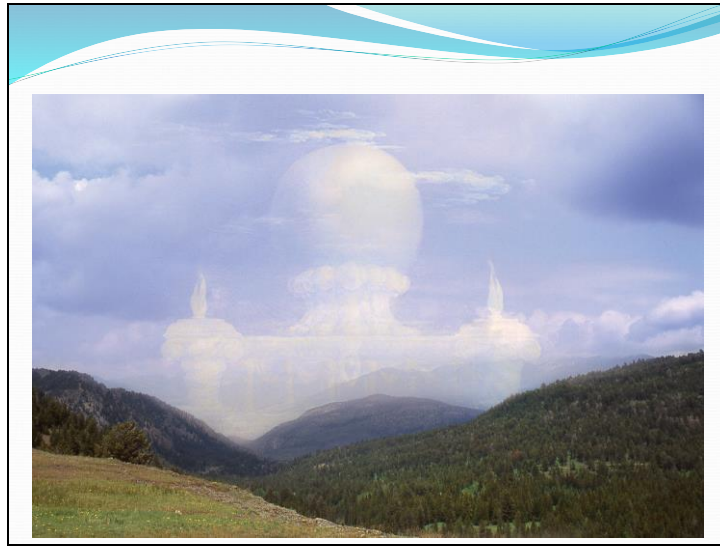

"In the heart of Lady Venus, who keeps the flame of Mother Earth with you, the flame of the Divine Mother of Love does abide. Thus Venus, initiator with the holy Kumaras of your souls on the path of the ruby ray, does position herself in this hour in the etheric retreat of the Divine Mother over this Ranch, arcing her heart's love to the retreats of the earth, to the Goddess of Liberty, and to every soul who must journey there."

In 1986 Gautama Buddha spoke of the retreat of the Divine Mother and of the Western Shamballa established in this location:

“Almighty ones of light I AM THAT I AM, now you understand that the **Western Shamballa, sealed over the Heart of the Inner Retreat and extending for many miles radiating out therefrom, is a consecration of a shrine made holy by the footsteps of archangels long ago.** Now you understand that the white-fire/blue-fire sun that has come in the establishment of **the Retreat of the Divine Mother, with Lady Master Venus presiding over the Ranch, is also the polarity of that Western Shamballa.**

As you have heard, then, and understood, you can see that **for aeons heaven has been banking upon this area as a place preserved, reserved, then, for evolutions who will come apart because they have been taken to the inner retreats of the Great White Brotherhood.”**

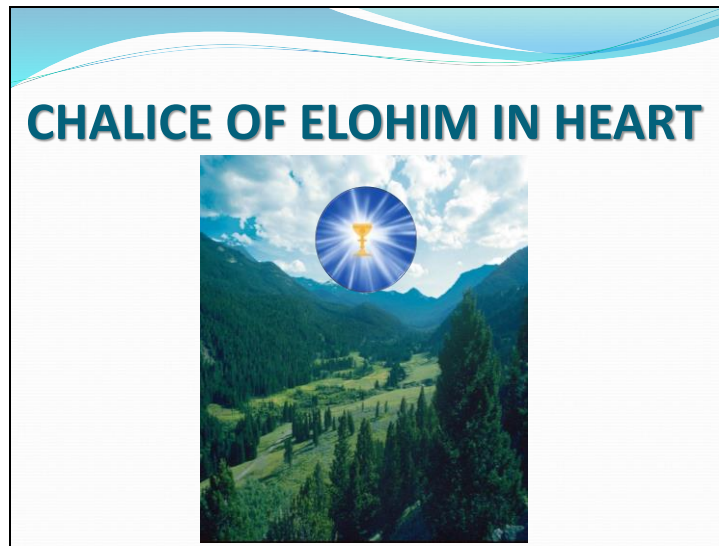

Lady Master Venus spoke of the Retreat of the Divine Mother over the Inner Retreat. She said:

“....know that the Retreat of the Divine Mother [is] over this place.... Beloved ones, this place is a place of culture and learning and it is the focal point that does draw the saints of East and West at inner octaves and those in embodiment.

“Expand the mind, beloved! For we would see pilgrims coming from every nation as ambassadors of Light to bring back to their nations the Path and the understanding and the Word. We desire to see this Teaching known in every nation before the end shall come, and this is the meaning of the word in scripture. It must be done, beloved! The seeds must be planted that none upon earth shall ever lose again the path of Lord Maitreya’s Mystery School.”

Lady Master Venus, January 1, 1991

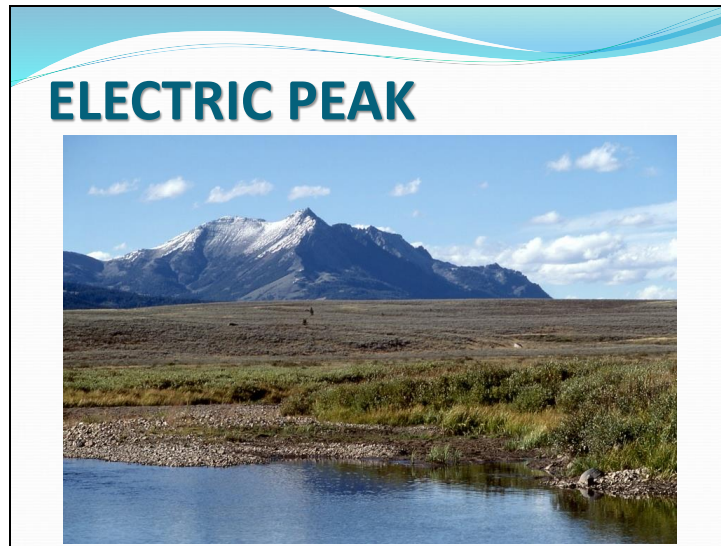

In 1987 Chamuel and Charity said that a chalice was being formed at the etheric level to meet the Elohimic Level. “When the chalice shall rise to meet the Elohimic level, then shall Elohim pour into this chalice that which ye seek.” Mother said, “This chalice is like a ‘funnel’ of crystal light. Through this funnel the Elohim gain entrée to the earth without impediment and step down their light to our level. The chalice is an open door for the Elohim to send their light throughout the world through their devotees. We can see candles of light burning in the hearts of all lightbearers who are profoundly dedicated to Elohim. The chalice allows the Elohim to anchor in the earth the energies of God that can transform the world. And because this chalice exists, the Elohim can instantaneously lower their presence in answer to our call. Thus our prayers to the Elohim can be more effective than ever before.” “When you decree, you can call for the reinforcement of the chalice of Elohim. ... the earth and each of us needs the empowerment of Elohim if we are to have transformation.

“Because the Elohim are magnificent manifestations of God, they can magnify the energies you put into your devotions many times over. So the more devotion and love and power you pour into your decrees, the more energy the Elohim will have to multiply and use on behalf of humanity.”

Beloved Alpha said that the chalice “gives to us entrée to earth twenty-four hours a day by the Spirit of Elohim. And by that Spirit of Elohim, the Cosmic Spirit of Freedom shall also descend.” In 1987, El Morya said that it is

imperative that Chalice of Elohim in the Heart be built to forestall the convergence of aliens and their counterparts on earth.

THE EMPOWERMENT OF ELOHIM, A Lecture by Elizabeth Clare Prophet, September 5, (Your Life's Purpose Labor Day Weekend Seminar) Westin Hotel, Ottawa, Ontario, Canada, *Pearls of Wisdom*, vol. 41 no. 42 Elizabeth Clare Prophet October 18, 1998, Your Life's Purpose: Hearts United in Divine Purpose - The Empowerment of Elohim

Electric Peak is located 7 miles northwest of Mammoth Hot Springs in Yellowstone National Park. At 10,992 feet, it is the highest mountain in the Gallatin Range and the 6th tallest peak in Yellowstone Park. Geologically speaking, Electric Peak is a part of and an extension of the same mountain range that makes up the Grand Teton Mountains. The entire Gallatin Range including Electric Peak, is a part of the Grand Teton Range.

Elizabeth Clare Prophet said: "Electric Peak has the fire of God at the very heart of it. These Rocky Mountains recall for us that they are positioned approximately opposite to the Himalayas. The holy mountain of God ultimately is each one's own Mighty I AM Presence which he must discover in the highest mountain of the earth—in the highest vibration."

"The new vista from the Lighthouse window reveals the Grand Teton Range as straight as the eagle can fly, positioned on the south side of the Royal Teton Ranch, where Cyclopea holds focus of the all-seeing eye. An arc of light from the Great Throne Room is anchored inside of Electric Peak. And beneath our feet, the heart and the cradle for the rocking of worlds."

NAMED FOR A REASON

Mother continued: “There is a vastness to the inner space of the sphere of Buddha and there is a vastness to the land that lies as virgin potential for the soles of tiny feet that have never touched earth before and for the well-worn feet who have climbed many a mountain, only to search for the highest mountain they can climb.” Interestingly Electric Peak was named in 1872 by the United States Geological Survey from an event that occurred to a survey team while they were climbing the peak. Henry Gannett, one of the team members, described the incredible effect of the lightning which was crackling and deafening and it made their hair stand on end and their skin hurt. (*Roadside History of Yellowstone Park by W. Blevins.*)

Serapis Bey has told us, “Electric Peak is not so named without reason. Though it is considered so called because of the lightning storms that are so frequent, we ourselves recognize the magnetism of the mountain as a point we can use in conjunction with other focuses within these mountains for the sendings of the heart of the Buddha.”

ANGEL'S ASCENT

Angel's Ascent is a landmark rock formation on Cinnabar Mountain facing the "East Gate" of the Inner Retreat. The huge rock, originally called "Devils Slide," has been renamed "Angels' Ascent." El Morya said that Angel's Ascent is our focus at the Inner Retreat of The Summit Lighthouse and of the spiraling formation kept now in the etheric octave by angels in white bearing candles aflame. He said it is the place where angels have come to stay. They mount the Angels' Ascent, giving the affirmation and praise to Sanat Kumara. These angels keep the vigil of Victory and "keep the flame for your coming to your Home of homes."

Pearls of Wisdom, vol. 24 no. 41 October 11, 1981 Beloved El Morya This Land, This Land, This Focus of the Flaming Yod!

The Court of King Arthur, the sanctuary at the Inner Retreat, named by the ascended master Lanello in 1987, is more than a chapel and a decree sanctuary. It is a “gathering place of concerned knights and ladies, Keepers of the Flame who come together...to call upon the Holy Spirit to release that sacred fire for a world alchemy that is so needed.”

A cathedral of light is anchored over the Court and the Cathedral of Illumination's Flame is around the Court.

The nearby Yellowstone River, charged with the light of the Royal Teton Retreat literally carries the light of our decrees under the earth and into the world.

Mother Mary, present in her statue on the altar, comes here for rest and surcease from her burdens. In this place she does not weep.

ARK OF THE COVENANT

The large crystal on the altar is the chalice for the flame of the ark of the covenant. In that crystal chalice and above on the etheric plane, there is the presence of the Maxin Light that once burned on Atlantis. There is no other place on earth where the flame of the Ark of the Covenant burns on the etheric octave.

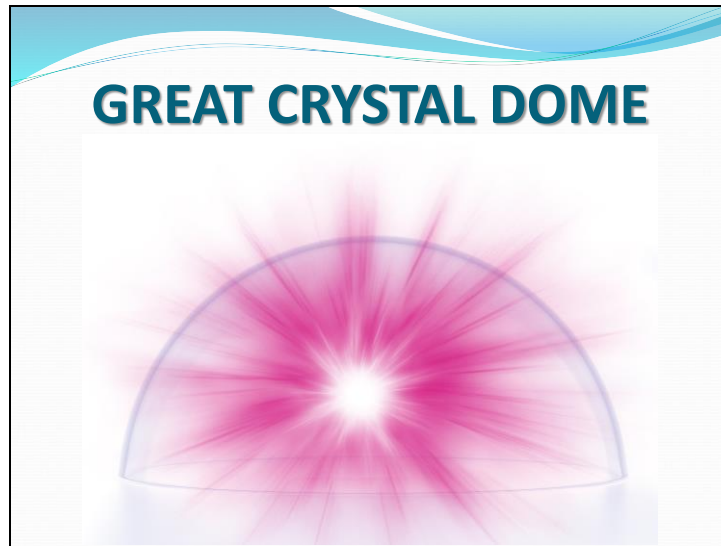

The flame is placed there by sponsorship of the Great White Brotherhood and the lineage under which we serve.

By this flame the ascended masters sustain civilization.

Its presence is a prophecy of the return once again in the time of a future golden age.

The altars of Church Universal and Triumphant that Keepers of the Flame tend daily around the world are tied to the flame of this altar and receive its emanations. The tremendous antahkarana as filigree lines of force tie every center to every other center in the world. It is that web of light whereby we can never be separated.

The Inner Retreat and outlying areas come under the protection of a great crystal dome. This dome is shaped like an igloo. When this teaching was first revealed the dome was covered with the darkness of Death and Hell. The explanation was that darkness naturally gravitates towards a vortex of Light to be transmuted, as well as to attack it and to create a barrier so that the Lightbearers of the world will not reach the place of light. The purpose of the wall of the Inner Retreat and the dome is to shut out the astral plane so that the astral plane is not experienced here and all human consciousness of the planet.

The Dome has an inner wall and an outer wall. Astral substance that collects between the inner and the outer wall must also be cleared. The messenger taught that what is seen “between those walls always reflects the open door of ourselves in the Community, the staff and the Keepers of the Flame. We can gauge where we are on the Path by whether or not this space is clear. This is our space that God has given to us. It is the space of our retreat on the etheric octave which does not correspond exactly geographically to the physical but it does include the physical.”

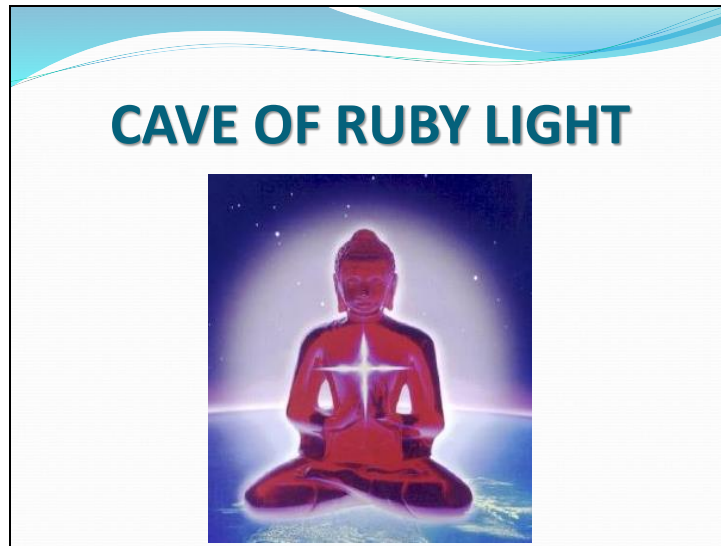

The Buddha of the Ruby Ray maintains a focus in Himalaya Mountain at the Inner Retreat. Lord Maitreya has explained: **“Thou art home in light and illumination’s glow as the fire in the heart of the mountain does set the backdrop for the Buddha of the Ruby Ray. Look, then, on the inner plane at the mount you have called Himalaya, as though the entire side of the mountain should open as a vast door and in the heart of the mountain is a blazing illumination's flame and seated in this flame, beloved, is the transparent Buddha of the Ruby Ray.”**

Lord Maitreya, January 2, 1988, New Year’s Conference, King Arthur’s Court, *Pearls of Wisdom*, vol. 31 no. 6, February 7, 1988

The Dhyani Buddha Amoghasiddhi also spoke of the presence of the Buddha of the Ruby Ray in Himalaya Mountain:

“In the God center of the Buddha of the Ruby Ray, who yet maintains a focus on this ranch in the mountain you have named Himalaya, so I say to one and all, call to us at any hour of the day or night for whatever conflict, for whatever calamity that you might see coming over the horizon.”

Amoghasiddhi, January 2, 1994, The Buddha’s in Winter, King Arthur’s Court *Pearls of Wisdom*, vol. 37 no. 9 February 27, 1994

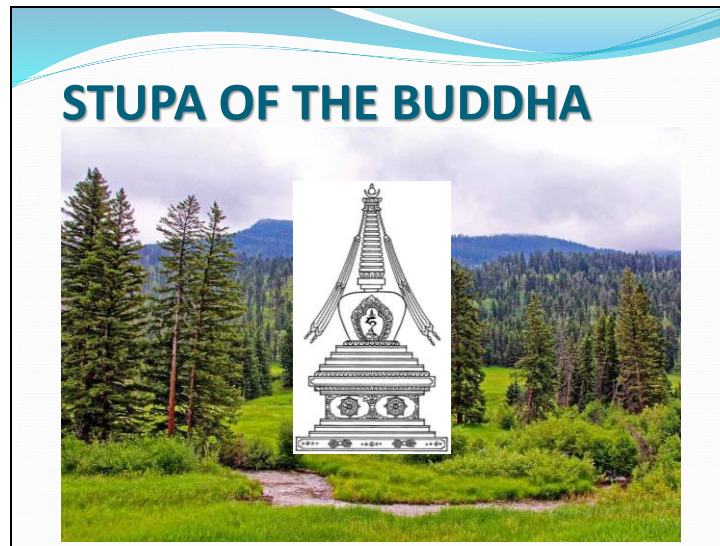

The Buddha of the Ruby Ray also announced the Cave of Ruby Light in the earth beneath the Inner Retreat:

“Remember, the Buddha of the Ruby Ray has angels of fiery intensity. They come out of the East. They come out of the Great Central Sun. They come from all levels of being. They even maintain a cave of ruby light in the heart of the earth beneath this property.

“Angels of the Ruby Ray are available at all times to pierce and peel and cut away and purge the density of improper diet, improper consciousness, saturation of the mind with foul music and foul entities that follow the music out of the depths of hell itself.”

Pearls of Wisdom vol. 37, no. 7 The Buddha of the Ruby Ray February 13, 1994

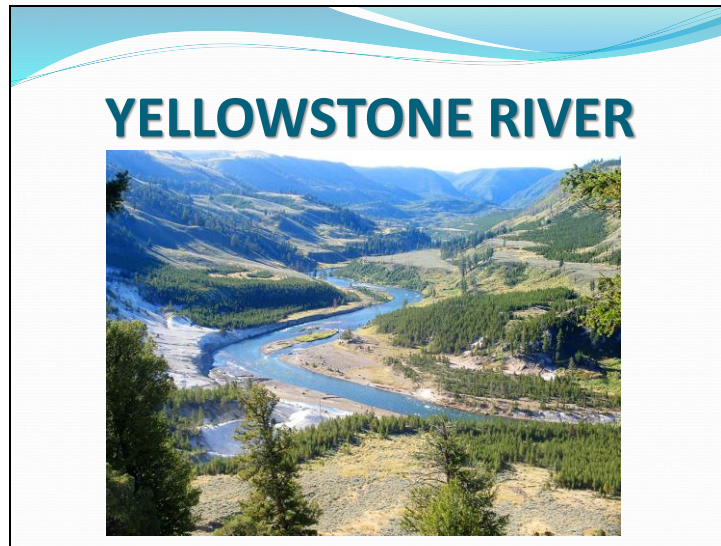

Mother said in 1989 that the most appropriate place for the underground shelters was the Heart of the Inner Retreat. “This is the place we ultimately chose for the storage of his [Jesus] teachings in the Heart of the Inner Retreat. I called to Lanello and Morya and they designated that site. I wondered if Mark himself when he directed me north to Montana did not see in his mind’s eye the beautiful mountains, Electric Peak, Glastonbury, the Mol Heron Creek, our conference site and all of us gathered under the tent.”

El Morya said, “You know it not but you build the stupa of the Buddha beneath the earth.” Gautama Buddha also spoke of “the stupa of the Buddha that you build.” Cuzco explained, “There is certainly a correlation between the initiation of going into the heart of one’s own Eighth Ray chakra, there to bow before the Lord of the World and to receive that initiation and to balance the threefold flame, and the establishment of a stupa that is in the earth rather than on the surface.”

Oromasis and Diana urged: “Let all forces of heaven and earth work together to defeat all those who oppose the completion of these shelters in the Heart and in North and South Glastonbury and shelters wherever Keepers of the Flame have enshrined them in the heart of the earth as the place of the stupa of the Buddha. It is the will of God.”

YELLOWSTONE RIVER

Elizabeth Clare Prophet said:

“It is always wonderful to me to know that...at the Inner Retreat we are only a few miles from the very source of the Yellowstone River. At that source, then, we qualify the river with light, and the light becomes as a crystal-clear stream, the water of life, as it passes through America and descends and feeds the major rivers of the country.

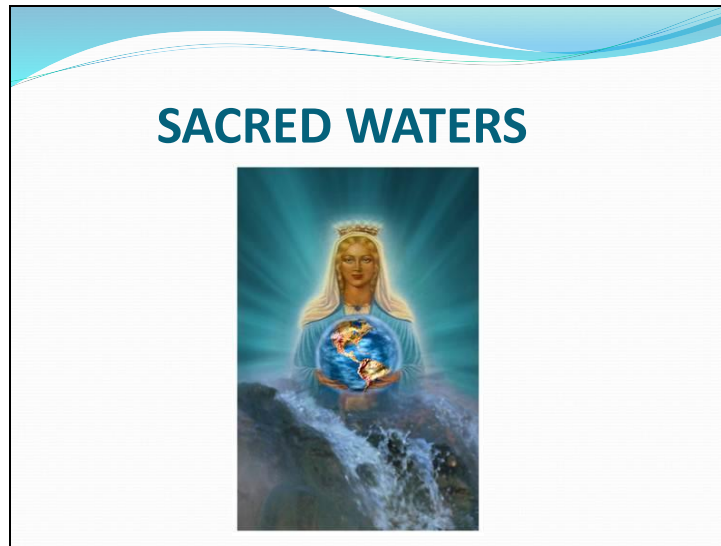

“We realize that the Yellowstone River is charged from the heart of the earth, from the very center of the Grand Teton, the Royal Teton Retreat, and that our being there is truly again for the carrying of the light under the earth and through the earth, out to sea and flooding the seas once again with light.”

Mother's Day Service, May 11, 1986, Before Dictation by Aurora, Camelot

Kuthumi said: **“Here there is land dedicated to the people, surveyed by the government of this nation, sealed in the Purple Fiery Heart of Saint Germain. And thus rippling through the nature kingdom, through the trees, through the ancient focus of the Yellowstone, there is an extension even beyond that which is the deeded property.** Blessed hearts, most fortunate are you who understand the golden path of the Buddha and the teachings that have been given by our Lord. Fortunate in the understanding that the initiation of space—and I speak of cosmic space—come through the heart of the Buddha, and of time and the timing of all cycles through the heart of the Mother. **We see the flowing of the streams and the mighty river of the Yellowstone marking the time of the cycles of the Mother’s light within you.**

“That flowing river is indeed symbolical and actually a focus of the kundalini light of the Mother passing, then, along the spine of the property and therefore magnetizing the raising of your own ascension flame from the base unto the crown. And even the mileage itself denotes, symbolically and actually, the milestones of the seven chakras and of the eighth ray that is the secret chamber of the heart. Realize, then, that even in these simple analogies, all has been planned from the beginning.” Kuthumi, September 20, 1981, Royal Teton Ranch *Pearls of Wisdom*, vol. 24 no. 74

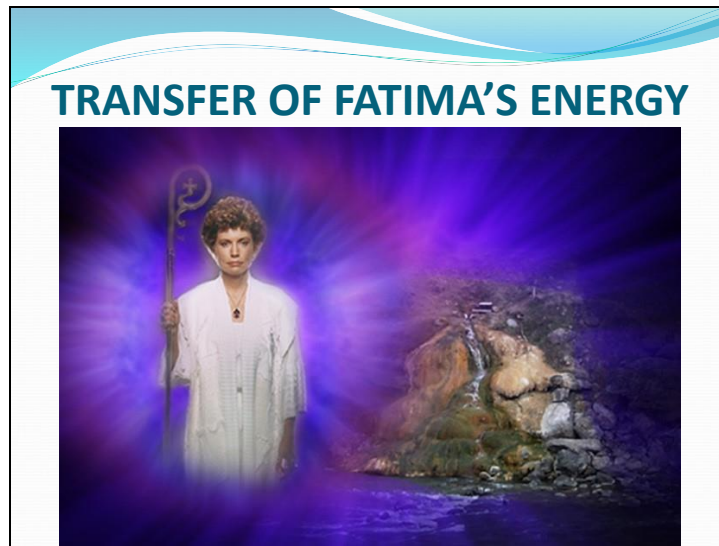

Sanat Kumara came with a tremendous dispensation of light from the Great Central Sun in 1984 to dedicate the land of the Royal Teton Ranch to the healing light and a world healing center. He prophesied a city of light and healing and the building of the Good Samaritan Hospital where all could access the healing waters.

Sanat Kumara explained that when such a center is reestablished and the sacred fire tended in the center of the center, people will come from all over the world as pilgrims today go to Lourdes and Fatima. He proclaimed that the prophecy will be fulfilled that many more pilgrims will come to this place of light than have ever gone to any other.

Lanello told us of the connection between Fatima, Portugal and the Inner Retreat: "The sign was given to Martha by Jesus long ago. Let it be known that this is more than a physical place of safety but an etheric retreat of the Divine Mother and the Buddha, an etheric passageway to realms of Light and Victory.

"Thus, out of the mighty Yellowstone and from deep within the earth do the healing waters of the Divine Mother flow, and therefore the Call of the arc of the Western Shamballa is the anchoring there of the retreat of Fátima." [Lanello, February 26, 1988]

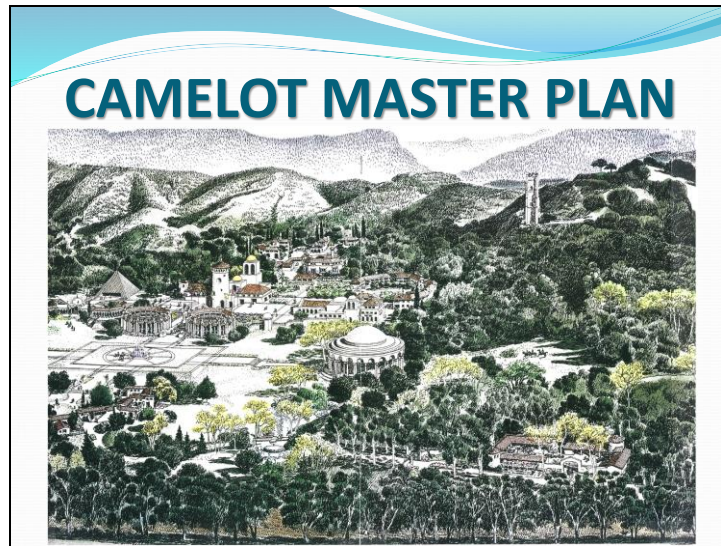

Elizabeth Clare Prophet explained in 1988 the meaning of the transfer of the energy of Fatima—it is the energy of healing, of the prophecies of Mother Mary in Fatima as well as the etheric retreat that is over the area of Fatima. She explained Mother Mary's great vision is to see the Inner Retreat as a place flowing with the healing waters, even the waters that flow under the earth from the Yellowstone.

The messenger commented in 1992 about the Geothermal Well on the property explaining that the mineral content of the water makes it a powerful healing source. She said that if Mother Mary so chooses, the healing potential of the waters as a chalice of Light and healing could greatly unburden the people of light.

The plan for the healing center calls for pools of various temperatures for people to use for healing. The water can be used for various baths and swimming pools and even to heat a greenhouse after it goes through the pipes in the swimming pool. The messenger also explained that there is great opposition to this mission and spiritual work is needed to cut free the project so that the people of light can access the healing available here.

In 1960 El Morya announced a dispensation from the Karmic Board and Helios and Vesta for Victory's Temple, a temple of the Great White Brotherhood to be built on earth, the first such temple to be built since the time of Atlantis. It is to be called: "I AM" the Temple of Life's Victory. It was depicted in the Camelot Master Plan 1979.

In 1986 the Great Divine Director called for the construction of a second temple—a circular, domed temple—at the Inner Retreat. This was to be called the Temple Beautiful. Archangel Jophiel confirmed in 1989 that the altar in King Arthur's Court did indeed anchor the flame of the Temple Beautiful "the electrode for the altar in the Temple Beautiful in the New Jerusalem."

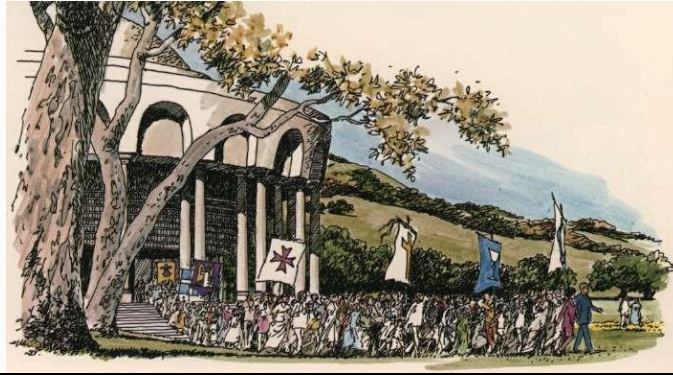

The Messenger said in 1997, "The Ascended Masters have told us that one day probably many, many years in the future beyond building the Church there would be an edifice which would be called Mighty Victory's Temple.

"When I came to the ranch I always saw Mighty Victory's Temple way into the future, like a golden-age future, or a semi golden-age

future. And the beginnings of that golden age would be what would precede it in not only our Church coming here to, right on the Yellowstone River and right in this area rather in the Inner Retreat.

“So it’s entirely feasible, if we are able to fund-raise, to design and put forth a magnificent edifice right here where everyone comes in and out of the park in either direction and they can see that we have a tremendous Church that has a flame, that has energy, that has marvelous people. And it’s simply a most wonderful place to be.”

TEMPLE OF VICTORY

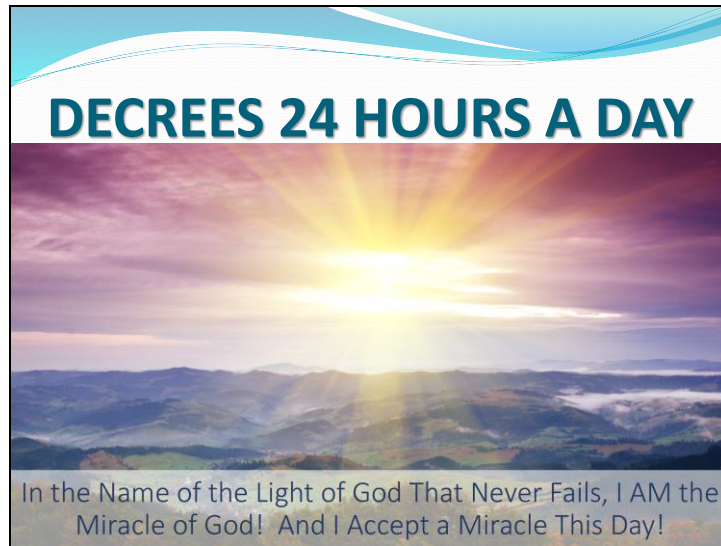

The temple is already built at etheric levels and we can visit it in our finer bodies. There are three floors.

The First Floor seats 3,300 and has Corinthian columns and paintings of the Chohans and other ascended hosts on murals around the inside walls. It is an amphitheater, dedicated to Victory's Flame.

The Second Floor is dedicated to the Holy Spirit and the Maha Chohan. Sacred Rituals are to be performed there and a huge focus of "a snow white dove" will also be anchored in this temple within which the masters of light shall precipitate several sacred tokens and "foci" of the sacred fire.

Finally the Third Floor is dedicated to the ascension and Serapis Bey. There will be an ascension chair in the middle of the room and the masters will step through the veil in their tangible bodies to assist their chelas in ascending.

Jesus and Magda spoke in 1984 of the building of the Temple:

“Our vision is to see now the mighty [Victory’s] Temple of Light and the cathedral built at the Inner Retreat and to have there twenty-four hours a day services for the nations. We desire to see representatives from every nation who are the highest lightbearers eventually arrive there, once they have scoured the very earth itself to give the teachings to every lightbearer. We desire to see the manifestation of the SUN itself in the spiritual unity of nations. We desire to see the Call and the Word and the ancient intonations resumed that were given in the early days of Atlantis and Lemuria.”

According to the endnote of this *Pearl of Wisdom*, “Jesus’ vision of the building of the temple and the cathedral at the Inner Retreat is an indication that the time is approaching when Victory’s Temple is to be built.”

Archangel Jophiel and Christine said:

“There shall be such an opening of the Heart of the Inner Retreat and such a protection thereto, blest by the Lord Gautama! And we trust, beloved, that the building of the Inner Retreat shall be the building of the Western Shamballa....

“Blessed hearts, this is a timeless, spaceless assignment. It shall come to pass! And this land is ordained by God, by Elohim and by Archangels.... So is this land consecrated to golden, Christed illumination’s flame from the heart of Lanto and Confucius and the God and Goddess Meru. This is the place where many shall gather to realize the Inner Light.”

Archangel Jophiel and Christine, March 26, 1989
